

CADDY® PYRAMID

Rooftop Equipment Support Height Extension

Part Number	Article Number	Description	H1 in[mm]	H2 in[mm]	L1 in[mm]	W1 in[mm]	Weight lbs[N]	F* lbs[N]
PEH31	360494	Post Height Extension	32 [800]	38 [960]	12 [305]	12 [305]	12.8 [56.9]	750 [3340]

*F represents maximum total static load per base.

*Height Extension used with Part Number PEB / Article Number 360425

*If fit is tight between post and base, use a hammer to fully seat post in base.

*Load must be stable and spread evenly across frame.

*The roof must be able to support the point loads at the base feet.

This document and the contents thereof is the property of ERICO and is furnished to you for information only. All dimensions and tolerances are in inches [mm], unless otherwise specified. This document is not to be used as an instruction sheet.

WARNING:

1. ERICO products shall be installed and used only as indicated in ERICO product instruction sheets and training materials. Instruction sheets are available at www.erico.com and from your ERICO customer service representative.
2. ERICO products must never be used for a purpose other than the purpose for which they were designed or in a manner that exceeds specified load ratings.
3. All instructions must be completely followed to ensure proper and safe installation and performance.
4. Improper installation, misuse, misapplication or other failure to completely follow ERICO's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death.
5. Products that are manufactured using spring steel components shall be used only in a non-corrosive indoor environment.
6. All pipe supports, hangers, intermediate components and structural attachments must ONLY be used as described herein and are NEVER to be used for any other purpose.

NOTE: All load ratings are for static conditions and do not account for dynamic loading such as wind, water or seismic loads, unless otherwise noted.

The customer is responsible for:

- a. Conformance to all governing codes.
- b. The integrity of structures to which the products are attached, including their capability of safely accepting the loads imposed, as evaluated by a qualified engineer.
- c. Using appropriate industry standard hardware as noted above.

SAFETY INSTRUCTIONS:

All governing codes and regulations and those required by the job site must be observed. Always use appropriate safety equipment such as eye protection, hard hat, and gloves as appropriate to the application.
