

LIGHTNING PROTECTION SOLUTIONS

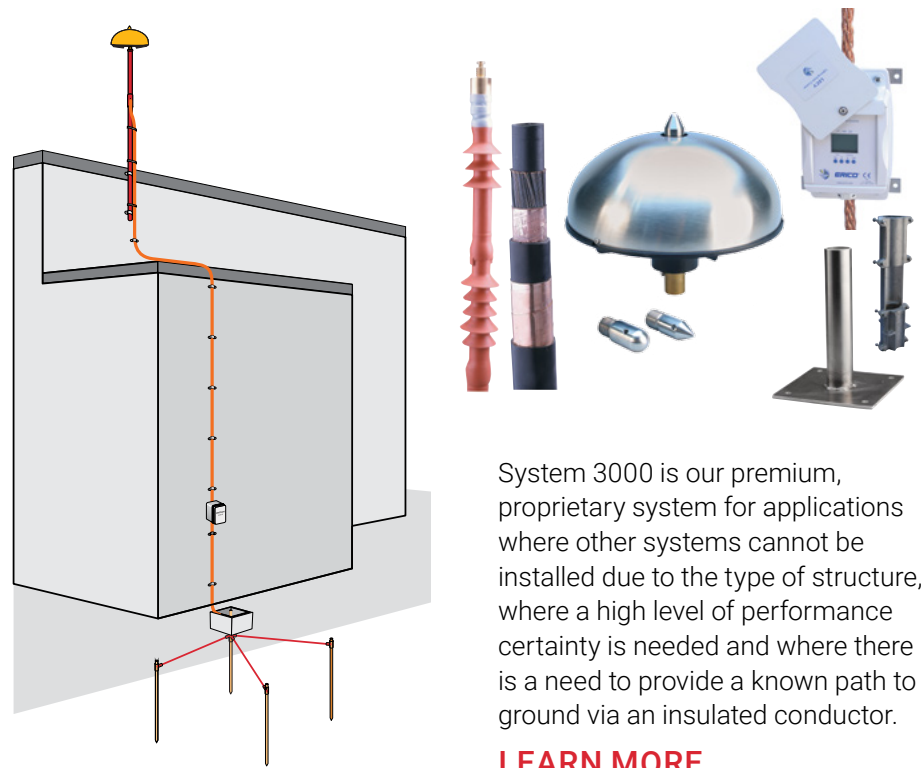

nVent ERICO can assist in designing the lightning protection system that's right for your building.

DO YOU:

- Have complex architecture that does not allow for application of a standard installation method?
- Have a substation that requires compliance with IEEE 998?
- Have a structure that does not have adequate continuous steel in columns to ground?

Talk to nVent ERICO about specifying, designing or installing:

NVENT ERICO SYSTEM 3000

DO YOU:

- Have simple architecture?
- Require compliance to global standards where utilizing the RSM is required?
- Need to pass third-party inspection?
- Need insulated conductors for an isolated system?

Talk to nVent ERICO about specifying, designing or installing:

NVENT ERICO SYSTEM 2000

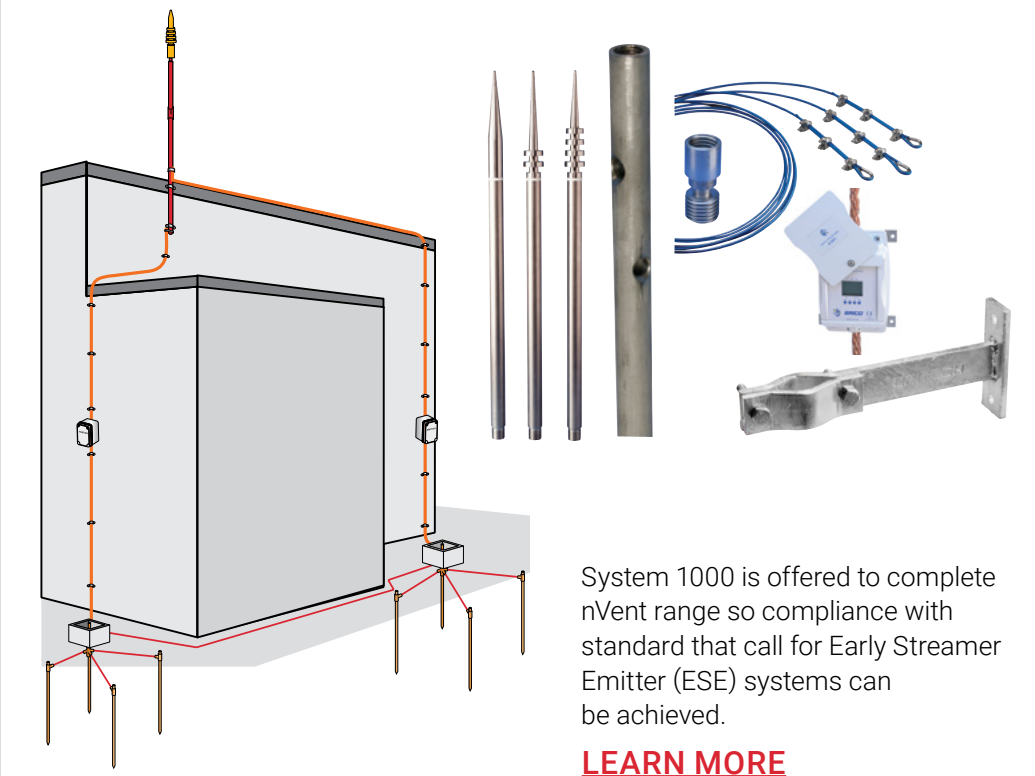

DO YOU:

- Need to comply to NF C 17-102?
- Have a low-lying, spread out structure where conventional methods would be cost-prohibitive?
- Need an enhanced solution where a conventional installation method is not specified?

Talk to nVent ERICO about specifying, designing or installing:

NVENT ERICO SYSTEM 1000
