

MSST1250

Rain hoods

W	1200
D	500
Item no.	MSST1250

Description: To be fitted as extra protection on stainless steel enclosures. The roof is slightly sloped and has a dripstrip.

Material: 1.5 mm stainless steel AISI 304 / AISI 316L.

Finish: 400 pre-grained stainless steel.

A stainless steel rain hood provides shelter via a sloped roof and protects installed components from accumulated water dripping into the enclosure when the door is opened.
